

Technology. Engineering. Business. Community.  
**TOGETHER.**

Technology. Engineering. Business. Community.

**TOGETHER**

networking  
education  
promotion  
support

TST was formed in 1968 with the merger of the many technical societies in the area at the time. TST has become a leader in educating the community on the many technical issues important to our region.

TST is dedicated to serving its member organizations, corporations, educational institutions and individuals to help keep this region vital, viable and growing. Such an umbrella organization facilitates cooperative efforts by gathering engineering, technology, business and community together for monthly Friday luncheons as well as cosponsoring the *award-winning* Toledo Area Engineers Week.
